

Chinaza Sunday

Software Engineer

I am a highly skilled software engineer with a major in front-end development and expertise in UI/UX design. With 2 years of experience, I focus on creating salable and user-friendly software solutions. I'm proficient in various programming languages and frameworks and stay updated with the latest industry trends. My passion is to deliver exceptional digital experiences through seamless and visually appealing interfaces.

WORK EXPERIENCE

Africa Leadership Software Engineering Accelerator - ALX

Africa Leadership Group - ALG

09/2022 - 10/2023, Nairobi, Kenya

The Africa Leadership Software Engineering Accelerator is a 12-month program that teaches the fundamentals and core principles of software engineering

Achievements/Tasks

- Learnt low-level programming using the C programming language. The key concepts learned: - control flow, functions, pointers, memory allocation, debugging, recursion.
- Implemented two projects with this knowledge. Recreated the output function in C, the printf function, and developed a command line interpreter that looks like and emulates the functionality of a Linux terminal.
- I recreated the Airbnb website using Python's Flask Web Framework and deployed it to a server.
- During my final year, I collaborated with a dedicated team to design and develop a blog website named "Space Tech." In this project, I assumed the role of the front-end developer, where I played a pivotal role in shaping the user interface and overall user experience.

Software Developer Intern

Enoverlab Institute, Nigeria

10/2023 - 11/2023, Lagos, Nigeria

Internship Experience: E-

Commerce Gift Store Project

Achievements/Tasks

- I designed and developed the front-end of the e-commerce website, focusing on delivering an engaging and user-friendly shopping experience.
- Conducted extensive testing and debugging to maintain optimal performance and resolve any user interface issues.

EDUCATION / Certificate

Africa Leadership Software Engineering

- Certificate Of Completion in Software Engineering

09/2016 - 12/2020,

Yaba School Of Technology(2022- present)

- Industrial Design in Fashion and Clothing Tech

Digi Girl (May 2023 - October 2023)

Certificate Of Completion in Digital Interface for UX/UI Design

Women Tech-star (May 2023 - October 2023)

Certificate Of Completion in Front-End Development

SKILLS

Programming Languages: C, Python

Web Technologies: HTML, CSS, and JavaScript

Web Frameworks: React, Api SASS

Visual and Interaction Design, figma

Deployment

Version Control/Git

Problem-Solving

Collaboration and Communication

ACHIEVEMENTS

- ***I successfully completed ALX's scholarship program on software engineering, which had 60,000 African students, and I am proud to be one of the 1,010 who accomplished this achievement.***
- ***Collaborated with cross-functional teams, including designers, product manager and back-end developers, to deliver seamless and user-centric web applications.***
- ***Dedicated to staying up-to-date with the latest front-end technologies, regularly attending web development conferences and completing online courses/certifications.***

LANGUAGES

English, Igbo, Yoruba

INTERESTS

Debugging

Research and Contribution
